Amazon Web Services (AWS)

Capstone project

December 2025 - February 2026 (3 months)

Started My AWS Capstone Project ☁️#

I'm excited to share that I have begun working on my Capstone Project using AWS, where I will be applying cloud fundamentals learned through AWS Skill Builder into a practical, real-world solution.

This project focuses on implementing core AWS services, understanding cloud architecture, scalability, security, and deployment best practices. It is helping me gain hands-on experience in designing and managing cloud-based applications.

Looking forward to strengthening my skills in cloud computing and building scalable solutions using AWS technologies.

nasscom

Intern

July 2025 - September 2025 (3 months)

I have successfully completed my Virtual Internship on Google Cloud Generative AI with SmartBridge & SmartInternz.

This journey helped me explore AI concepts, cloud integration, and practical applications of Generative AI. Looking forward to leveraging these skills in future projects!

VLOG Innovations LLP

Intern

June 2025 - July 2025 (2 months)

No.155, Koilpadagai Main Road, Chennai, Tamil Nadu 600062

Thrilled to share that I have successfully completed my internship as a **Data Analyst Intern** at **VLOG Innovations LLP**, an ISO 9001:2015 certified organization, from **16th June 2025 to 12th July 2025**.

During this period, I had the opportunity to gain hands-on experience in **NPD, Manufacturing, Health, AI, Software, and System Integration domains**. This internship has enhanced my skills in data analysis and provided valuable exposure to real-world industrial training.

A big thank you to my mentors and the team at **VLOG Innovations LLP** for their constant guidance and support throughout this journey.

Excited to apply these learnings in future projects and career opportunities!
