PROFESSIONAL SUMMARY

AWS Cloud & DevOps Engineer with hands-on experience deploying and automating cloud infrastructure across EC2, S3, IAM, VPC, Lambda, and RDS. Built and shipped three end-to-end cloud-native applications using Docker, CI/CD (GitHub Actions, AWS CodePipeline/CodeBuild), and event-driven architectures with SQS and DynamoDB. Seeking an entry-level Cloud/DevOps Engineer role to build secure, scalable, automated infrastructure.

TECHNICAL SKILLS

Cloud (AWS): EC2, VPC, IAM, S3, RDS, Lambda, CloudWatch, Auto Scaling, Elastic Load Balancer, SNS, SQS, DynamoDB, ECR, ECS Fargate, AWS Glue, Aurora

DevOps & CI/CD: Docker, Kubernetes, Git, GitHub, GitHub Actions, AWS CodePipeline, AWS CodeBuild, CI/CD, Linux, Shell Scripting

Networking: VPC, Security Groups, NACL, Route Tables, Internet Gateway, NAT Gateway

Monitoring: Amazon CloudWatch, CloudWatch Logs, CloudWatch Alarms

Programming & Data: Python, SQL

Operating Systems: Amazon Linux, Ubuntu, Windows

PROJECTS

SuperMarketPRO — AWS Cloud & DevOps Deployment

Jul 2026 – Aug 2026

- Containerized a full-stack e-commerce application (Node.js, Express.js, MySQL) with Docker for consistent, reproducible deployments.
- Built an automated CI/CD pipeline using AWS CodePipeline and CodeBuild integrated with GitHub, enabling continuous deployment on every push.
- Configured Amazon ECR for container image storage and automated deployments to ECS Fargate.
- Set up CloudWatch Logs for centralized application monitoring and faster troubleshooting.

Restaurant Order System — Cloud-Native Food Ordering Platform

Jun 2026 – Jul 2026

- Built a full-stack food ordering platform (Node.js/Express on EC2) with customer and admin interfaces for menu browsing, cart, checkout, and real-time order tracking.
- Designed an event-driven backend with Amazon SQS and AWS Lambda for asynchronous order processing across DynamoDB and RDS MySQL.
- Implemented JWT authentication, S3-based image storage, and SNS notifications for order updates.

Blissful Abodes — AI-Powered Hotel Booking Platform on AWS

Dec 2025 – Feb 2026

- Built a scalable hotel booking platform using EC2, RDS, S3, and IAM to deliver secure, highly available cloud infrastructure.
- Integrated AI-driven recommendations to enhance the booking experience and demonstrate applied cloud + AI integration.

INTERNSHIP EXPERIENCE

AWS Cloud & Generative AI Intern | SmartBridge

Dec 2025 – Feb 2026

- Completed hands-on training across core AWS services including EC2, S3, IAM, and VPC networking fundamentals.
- Configured cloud infrastructure, access management (IAM policies/roles), and end-to-end deployment workflows.
- Explored integration of AI models with cloud-based solutions for real-world use cases.

Generative AI Intern | NASSCOM (Google Generative AI Program)

Jul 2025 – Sep 2025

- Worked on AI-driven automation and real-world data processing using generative AI models and prompt engineering.
- Designed automation pipelines that reduced repetitive manual tasks and improved workflow reliability.

Data Analyst Intern | VLOG Innovations LLP (ISO 9001:2015 certified)

Jun 2025 – Jul 2025

- Performed data analysis across NPD, Manufacturing, Health, AI, and Software domains.
- Supported industrial training and system integration tasks under mentor guidance.

EDUCATION

B.E., Electronics & Communication Engineering

2022 – 2026

GRT Institute of Engineering & Technology | CGPA: 7.82

HSC: 69% | SSLC: 65% — Vivekanandha Matriculation Higher Secondary School

CERTIFICATIONS

AWS Cloud Quest: Cloud Practitioner • AWS Cloud Foundations • AWS Security Foundations • AWS Technical Essentials • Docker for Absolute Beginners • NPTEL: Python for Data Science • Tata Group: GenAI Powered Data Analytics (Forage)

ACHIEVEMENTS

- Top 20 Finalist (14th Place, Institution Level) — AWS PartyRock Hackathon 2025
- Research Paper Presentation — ITDECC 2025 International Conference
